Unit 4 My World Food

1 Read, Choose, and Write

Do you want to eat what animals eat? It can be surprising and interesting to learn about what some animals eat. There is a butterfly that likes to sit on the faces of bigger animals so it can drink the water from their eyes. They can drink from the eyes of birds, turtles, crocodiles, and even elephants! There are also fish called **cleaner fish** that live in the ocean and eat the dirty things and old skin on the outside of big sharks. Some fish even eat the skin from people's feet!

People around the world also eat and drink many unusual and interesting foods. In **Cambodia**, people like to eat barbecued or fried spiders. In **Australia**, kangaroo meat is very popular. You can even get a kangaroo steak! Food that is unusual to us is not unusual for everybody! Does your food look unusual to someone in America or England?

Choose the best name for the story or write your own.
